DAVIT

El punto de anclaje para los espacios más exigentes.

The anchorage for the most demanding environments.

O ponto de ancoragem para os ambientes mais exigentes.

Il punto di ancoraggio per gli spazi più difficili.

ES. La familia **DAVIT** es una gama de anclajes pescantes versátiles y resistentes, ideales para trabajos en altura, rescates y espacios confinados. Ofrecen una rotación fluida, amplia movilidad y una sujeción segura y estable, facilitando maniobras precisas en entornos exigentes y accesos limitados.

EN. The **DAVIT** family is a range of versatile and resistant anchor systems, ideal for working at heights, rescues, and confined spaces. They offer smooth rotation, wide mobility, and a secure and stable attachment, enabling precise handlings in challenging environments and restricted access areas.

PT. A família **DAVIT** é uma gama de ancoragens de versáteis e resistentes, ideais para trabalhos em altura, resgate e espaços confinados. Oferecem uma rotação fluida, uma grande mobilidade e uma fixação segura e estável, facilitando manobras precisas em ambientes exigentes e acessos limitados.

IT. La famiglia **DAVIT** è una gamma di ancoraggi pescanti versatile e robusta, ideale per lavori in quota, di salvataggio e spazi confinati. Consentono una rotazione fluida, ampia mobilità e un ancoraggio sicuro e stabile, facilitando manovre precise in ambienti difficili e con accesso limitato.

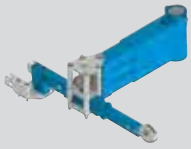

ES. Sistema de anclaje pescante diseñado para generar un punto de anclaje superior y ser utilizado de forma vertical.
EN. Davit anchor system designed to create a top anchorage and be used vertically.
PT. Sistema de ancoragem pescante projetado para gerar um ponto de ancoragem superior e ser utilizado na vertical.
IT. Sistema pescante progettato per realizzare un punto di ancoraggio superiore e per essere utilizzato in verticale.
